

# THE FUTURE IS BRIGHT

Why it's important to choose the right manufacturing partner to deliver rapid and flexible scale-up.

1

An unexpected increase in demand...

2

...drives a near term need to expand manufacturing capacity.

3

But current capacity is insufficient and can't be scaled up quickly enough.

4

Need to find a manufacturing partner that can help mitigate risks for:

## Tech Transfer

- Quality Issues
- Supply Chain Disruption

Tergus Pharma provides a **seamless and rapid tech transfer** process for **generic, branded or OTC** topical dermatologic products. Because **we are only focused on topicals**, we have a unique understanding of the varying risks and needs when choosing a CDMO. With **extensive cGMP experience and our state-of-the-art platform** dedicated to topical products, we are uniquely positioned to provide **rapid scale-up without sacrificing quality** or introducing risk to supply chain.

## Missed Revenue

- Ramp up fast

Your CDMO partner's equipment and capabilities should have the **ability to adjust to fit your specific scale-up needs**. Tergus Pharma built a flexible manufacturing platform that **supports 30L to 1500L batch sizes on the same manufacturing equipment**, accelerating turnaround times by eliminating the need for re-validation.

Tergus Pharma provides a seamless and rapid tech transfer process for topical dermatologic products with a high level of flexibility to accommodate your evolving needs.
